Son las unicas maquinas de sacar grandes cantidades de agua como lo exijen las haciendas vacunas y ovejas en tiempo de seca. Llamamos la atencion de los Sres Estancieros a las siguientes ventajas que presentamos. 1º Cualquier caballo por inutil que sea enseñandolo saca solo una cantidad de 50 a 60 pipas por hora de un pozo de 10 vs de profundidad. 2º Estan construidas solamente de fierro, tan solido que no se descomponen casi nunca. 3º Aplicandolo a un pozo inagotable que tambien la casa se encarga de perforar, presenta inmensas ventajas. El juguete se reduce a un pozo como de 1½ a 2 vs; puede estar completamente tapado que ni la langosta ni la alcachofa puede entrar y echar a perder el agua, fatalidades de funeste consequencia para los estancieros. Los Sres. Unzue, Bernals, Vidal, Duggan, Newton, Carril, Lezama, Alvear, Daporal, Casares y todos los estancieros de importancia los tienen en uso algunos años, daran informes de su eficacio y construccion solida, su precio es equitativo $5000 la noria y $100 la vara de cajilones.

To Engineers

B. Aires, May 4th, 1880

Mr. J. A. Bennet
Sir,
I have thoroughly tested the Valvoline Oil our Company purchased from you, and I can recommend it as a very superior article. The A. A. Cylinder Oil, so highly commended by United States Government Engineers, I find fully equal to their representations. For Cylinders, Glands, Pistonrods and Trunnions, it is not only effective but cheaper than Vegetable Oil, Animal Oil or Tallow. It keeps the running surfaces in nice condition, and after standing a number of days, manifests no tendency to oxidise. The A. Machine Oil, for bearings, etc. I find quite as satisfactory a lubricator.
It is cheaper than Olive Oil, and very much superior to it, lubricating more perfectly. It wears longer without heating, and relieves friction better than animal or vegetable oil.
I am, Dear Sir,
Very truly yours
PETER SLOAN

THE DROUGHT.

The rain on Tuesday night is worth more to the country than people in the city generally suppose. We are all so enveloped in politics, conferences, &c., that the general affairs of the country lose that interest for us they should always command; and of infinitely higher import to us all is the long-looked-for rain than the Tigre conference or the Roca refusal. The state of the South camps is worse than known for the last twenty years; lands that were renowned for their fine pasturages, such as the Moro, the Loma de Gongora, Mar Chiquita and Tres Arroyos, are exhausted, and not, as in the North camps, by over stocking, but by the continuance of a drought which some Southern estancieros say has now held for two years. Gangs of peones have been hired for the last month by some well-known native estancieros to skin the cows dying on their lands. From Dolores out the drought has been so terrible that not a cow is to be seen; and as for the sheep, some idea may be gathered of the danger that threatened from the news we published yesterday of an Irish sheepfarmer of Mar Chiquita coming up to town to buy five hundred fanegas of maize for his fine sheep, having previously bought 250 fanegas for the same purpose. Of course it will occur to many, as it does to us, that a sheepfarmer who has very fine sheep should grow maize enough to keep them alive, and we shall never alter our opinion on this subject. The sheepfarmers and puesteros must produce more, must till the soil, and every puesto in the camp must be a farm-house in the true sense of the word, not a miserable mud hovel, with nothing to adorn it but the 'chiquero.'

The camps in the Western districts have, strange to say, suffered less from the drought than any others, and we believe none of the farmers about there have been obliged to move their flocks—yet there is amongst many of the sheepfarmers a strong prejudice against the Western camps, which they consider never can be refined or improved, and which appears to us more a prejudice than anything else. Nearly all the fine lands of Giles, Areco, Carmen de Areco, Capilla del Señor, Zarate, Mercedes and Suypacha are as bare to-day as the Calle San Martin; and during our trip to the camp really nothing could be more distressing than to meet with farmers driving their flocks, and when asked where they were driving them to, they replied they knew not where, but that as their camps had become so very bad they were compelled to start off with their flocks, even though full of lambs, and drive along slowly until they found camp with grass enough for a couple of months.

The drought this year in the North has rid some of the farmers of the trouble of cutting down the weed called 'cepo de caballo,' since this thorny, burry weed has been the means of saving the fine young grass that grows beneath; and on one well-known estaucia, where this weed has not been cut, the grasses are so good that 28,000 head of horned cattle and 110,000 sheep have not to be stirred from the land, although all the neighbours around who have cut down the weed, or that it does not grow on their land, have been obliged to drive sheep, cattle and mares out to Rojas and Lincoln.

The night we passed through the town of Salto, the place was thronged with farmers who had arrived from the inside camps and were looking for land. One party wanted room for 50 flocks of sheep. Now, taking that each flock numbers two thousand, here we had a countryman with 100,000 sheep and nowhere to feed them—rather an unpleasant dilemma, and the greatest of all difficulties seemed to be where to find land for so many sheep. We suppose that the flocks had to be sent out to Bojas, Junin and Lincoln, as we learn from an estanciero who knows well all these lands, that although in general they are unfit for sheep, still in the cañadas or valleys there are always to be found spots with soft grass. From what we heard and from what we saw, we should say at least one thousand flocks of sheep in the North partidos have been removod out; and if the drought brings on the farmer expense and inconvenience, it always serves a wise purpose in bringing the farmer face to face with the outside camps, which they so long and so persistently neglect. This season will do more for the outside lands than most people are aware of. The more the stock moves out the better. We have always had too much stock on the inside lands. The cattle estancias in Lincoln have given 40 per cent increase, and the grass is so high out there that it can be mown as if meadow.

At Rojas, also, the camps are splendid, and rodeo after rodeo has been driven out there since the first of the year. Greater than peace is the rain; and now that the rain has come, we doubt not Peace will come also.

GENERAL ROCA'S NOTE.

The following circular from General Roca has been sent to the *Tribuna*, with a request to all the other papers to publish. We most readily comply, although we doubt if old Talleyrand himself could write so little in so long a note. General Roca, however, admits that Governor Tejedor has a conscience, and appeals to it to rectify certain statements respecting the Tigre conference. It is probable that Governor Tejedor, if he sends the General an answer, will return the compliment, and also admit that the General has a conscience; but the public has certainly a right to look for something more to the point than letters and speeches that amount to nothing, and almost aggravate the difficulties of the situation. Nevertheless, as people may wish to know what General Roca writes under his own signature, in a moment so critical, we give the letter. The General evidently adheres to the proverb 'Little said is easy mended:'—

Campana, May 11th, 1880.

Mr. Editor,

These lines are addressed to all the inhabitants of the Republic.

Natives and foreigners, supporters and opponents, will hear me for the first time.

I swerve from my general line of conduct; but the moments are supreme and impose on me the duty of breaking my silence immediately, in consideration of the eloquence of late events,

I allude to the peace petition, the grand aspiration of the country, and the unexpected expressions of the Governor of the Province of Buenos Ayres, Dr. Tejedor.

The latter has a conscience, and I appeal to it when I declare that if we did not understand each other the fault is not mine.

My immediate descent to the Tigre, to treat with him, is an eloquent proof.

I can lend my ear to no proposals whatever so long as Congress is not constitutionally installed, with perfect liberty of debate, and surrounded with all the guarantees and respects due to the highest political bodies of the nation.

And I call the attention of parties to this necessity, because otherwise the general aspirations would not be realized.

In this respect my resolution is deliberate and irrevocable, and relies on the advice and support of the most honorable and representative men in the Republic.

Once that body is legally assembled, according to the wishes of the country, I am willing to make a call on the patriotism of my numerous political friends—Senators, Deputies and other persons of consideration, and I will submit to their decision.

People may then judge whether I have been calumniated by my adversary, Dr. Tejedor, as he has not yet had an opportunity to pass an impartial verdict on me.

It is a question of honor to me to prove that I am not animated with a vulgar ambition—that I understand the responsibilities of a candidate and head of a party—and, finally, that I will never allow myself to become the cause of civil strife.

I repeat it: I submit to the decision of arbitration, convinced that the verdict will be just and rational, as it must be given in consideration of the great political interests imperilled in the struggle, and of the difficult problem of national organization.

My resolution is firm. I leave for Cordoba, and I beg of the editors of the Press to give publicity to this letter, accepting the assurance of my most distinguished consideration.

Julio A. Roca.

THE AMERICAN MAILS.

New York, April 8th.

Castle Garden was taken by surprise Wednesday by the arrival of eight of the advance guard of 'The Salvation Army' by the steamer Australia, from London. The band consists of George Railton, 'High Commissioner,' and seven young women, one of whom styles herself 'captain' and the others 'lieutenants.' All wore what is described as the regulation uniform of the Salvation Army. High Commissioner Railton had on a suit of dark blue, a cutaway coat and a high peaked hat. The women, who are all apparently about thirty and all stout and hale, did not wish to tell their names. They wore short blue dresses, blue ulsters trimmed with yellow braid, and Derby hats marked 'Salvation Army' in gilt letters in front.

The new-comers had evidently made every preparation for their arrival in America by adapting the words of their hymns to more or less national airs. A few moments after they were settled in Castle Garden, High Commissioner Railton proposed to hold religious services, and a solemn hymn was sung to the tune of 'Way Down the Suwanee River.' A curious throng at once gathered around the little army, and more hymns were sung. Then the drill was cut short by the arrival of a brother from Philadelphia who had endeavoured to found a colony of missionary workers in the Quaker City, but had failed. High Commissioner Railton greeted the Philadelphian rather coldly.

The Salvation Army propose to hire a hall in the city. Commissioner Railton says that he has no money except a little advanced by the home army, and that the money allowed for expenses will have to be returned. He hopes to secure contributions. He exhibited his blue and red flag with a large yellow star in the centre to the crowd.

The Commissioner further impressed upon the reporter that the Salvation Army did not consist of wild and thoughtless fanatics and that its members had no idea of making a mockery of religion. On the contrary, it consisted of pure men and women, who were devoted to Christ and who had agreed to sacrifice their lives to making converts. He averred that the army had the approval of the Archbishop of Canterbury, the Earl of Shaftesbury, twenty-three mayors, seventeen superintendents of police and 129 clergymen.

The captain of the women said that the Salvation Army was founded in 1865 by the Rev. Wm. Booth, of London, who wished to reach the classes which never attended church. He therefore organized outdoor services all over England. The home organization of the Salvation Army now consists of twenty-two corps in uniform, under the direction of 195 officers. The army holds meetings in 148 theatres, concert halls and rooms. Last year 45,000 indoor services were held and 60,000 open-air exercises. The army made 256 converts and there are now 3,256 enrolled in its ranks. The home organization raised £12,000 last year by contributions, of which £4,000 were voluntary.

Commissioner Railton travelled all over the city yesterday afternoon trying to get some printing establishment to print his posters free. In the meantime the captain and lieutenants sang hymns in Castle Garden.

The United States Assistant Treasurer paid through the Clearing House to-day, a check for $310,500, being three months' interest, due April 1st, on one lot of 4 per cent bonds. The check was made payable to a private individual—presumably Mr Wm. H. Vanderbilt. The above amount represents 1 per cent of the principal, which is therefore $31,050,000, the income from which is $3,450 per day.

There were but 77 failures reported in this city for the first quarter of the year 1880, the aggregate liabilities being $953,635, with assets valued at $292,026. The first quarter of 1878 had 292 failures, with total liabilities of $20,000,000; and the same period in 1879 had one hundred and forty-one failures in which the total liabilities were $32,805,512 and assets $959,826.

At a meeting of the creditors of J. W. Amerman & Co., bankers and brokers, No 16 Broad street, held on Wednesday, a proposition was submitted for settlement on long time, extending over a period of from one to two years, both principal and interest to be paid in full. No definite action was taken, but it is probable the offer will be accepted and the firm resume business.

Washington.

Secretary Thompson has written the following letter to Commander E. Potter, commanding the Constellation:

"Sir—So soon as her cargo is on board you will proceed in command of the Constellation to Dublin, and there deliver the cargo to the *Herald* Relief Committee for disposition at their discretion. You will make known to the committee that this cargo of provisions is contributed by a few generous-hearted citizens of the United States to relieve the wants of the suffering people in Ireland, whose condition has aroused extraordinary sympathy in the American mind. Congress, in obedience to this sympathy, has directed that these donations shall be conveyed on board a national man-of-war, and I have designated the Constellation for that purpose. I am sure it will be a more agreeable duty to you to take her without her guns upon this mission of peace and benevolence than to command her upon a warlike expedition. Your visit will enable the people of Ireland to realize that 'peace hath her victories no less renowned than war,' and that, in this age, these victories do more to create amicable relations between the people of different nationalities, and to draw them closer together than the roar of battle. When you shall have discharged this trust you will return to New York and report your arrival.

"*E. W. Thompson,*
Secretary of the Navy."

Chicago, Ill.

The litigation over the Maxwell grant in New Mexico was yesterday terminated by a foreclosure sale of the entire property under the decree of Chief-Justice Prince. This finally sets at rest the title to nearly two million acres of the most valuable mineral and grazing land in New Mexico. It includes some eight thousand acres of well-watered grazing land, over six hundred acres of surveyed coal lank and the Moreno Valley placer mines, besides several gold quartz mines, including the Aztec Mine. Mr Frank R. Sherwin and his counsel, Judge Birdseye, of New York, bid the entire property in at $1,000,000 under the first mortgage and 100,000 under the second mortgage. The aggregate of the two mortgages and interest held by Dutch bondholders was $8,000,000. A United States patent has been secured and a company is organizing to develop the territory to be controlled by a board of four American and four Dutch directors. The four Americans selected are Mr Sherwin, N. K. Fairbank, of this city: Geo. M. Pullman and Geo. B. Carpenter. The property is situated in the northeast corner of New Mexico, with 200,000 acres across the line in Colorado.

MONTEVIDEO.

(*From our own Correspondent.*)

May 10th.

Our Montevideo Rowing Club regatta came off in very good style. The meeting was numerous and select, and the entertainment was all that could have been desired except-ing, of course, that our party was beaten by the Anglo-Porteño Rowing Club. The day was magnificent and the locality just the thing wanted, as the Santa Lucia bar has always smooth water and ample space. There was a good deal of excitement among the amateurs, in which the ladies joined heartily. I hope the thing will be repeated soon, as it is a manly excercise and was well got up; the expense is moderate and the little travel going and returning is just the thing to keep one lively. In the way of amusement we are otherwise well supplied to pass the winter long nights, two zarsuelas or Spanish opera companies, one French operatic and dramatic company, and great Hermann's sleight-of-hand 'soirees' are among the high toned, and I do not know how many other minor performances, amateur and professional, among which some very good concerts, in which last our population seem to be fast getting ahead in good taste and happy disposition. Some very clever 'dilettanti' are being shown off in young people natives and, foreign. Amateur theatricals are also becoming prevalent, and our young people seem to take it up with a will. Among the various more or less manly amusements, we may as well have a peep at our Tiro Nacional. The efforts being made to carry on the warlike amusement are great among the members of the young idea, and I observe that the thing has been taken up at the various town heads of departments. The spirit is strong, but I doubt the prudence of the persisting young folks, who are always more generous in their ideas than solid in their undertakings; yet, we cannot reprove harshly that which is well meant, and should 'la bete noire' try to show her teeth, it may be as well to be able to show fight in return.

Politically we have the Minister of War and Marine's manifesto directed to the journal *Diario del Comercio*, but implicitly to the people, in which he explains that he is not 'la bete noire' that people seem to think, and tries very hard to convince the community that he is a very good boy in his way, and closes with an offer of guarantee of good conduct, which is very edifying in a Minister of State. The Government has determined to raise Colonel Miro to the rank of General as one of the distinguished Uruguayan officers who accompanied the great South American Liberator, General San Martin, in his campaigns in the western and northern South American States against the Spanish. General Miro is about the only one officer existing of that mighty campaign, and is deservedly advanced to that rank as a virtuous veteran of the old times. He is very old, but I hope he may be able to join in the honors to be offered in this port to the remains of his former chief. With regard to Generals, let me make a passing remark well worthy of the circumstance. We have not been lavish in this country, of late, in raising officers to the rank of General, a good example shown by Colonel Latorre in refusing it himself and thereby preventing a batch of Generals from being created. In this respect we are not so bad as in other South American petty states, where Generals are as abundant as lawyers in Cordova. Talking of the Colonel, it may be as well to 'take a note of it' to the effect that he is expected every moment in town, and I surmise that he means to brave the lion in his den; whether he will succeed as Daniel did, is a thing for the future, but come he will, I am confident.

The Administration is being carried on more smoothly the last week; the exchequer has been liberally used in paying pressing money exigencies, employees have been paid outstandings and so far it is all right. The proceeds of last month's Custom House rent has not transpired, as far as my premises, which circumstance induces me to suppose that it has not reached much above a quarter of a million dollars, and, I may possibly mistake, but I think that May (this month) may not give even that, and then look out for squalls ahead. The paper money holders are trying to suggest very plausible ideas to the mind of the Government about paper money being accepted in the Custom House and other offices in payment of duties &c., in order to try and give it a circulation. Very 'a propos' indeed, just in these circumstances I do declare, and a very clever lawyer is at the head of the plan, much to my amusement. I think I mentioned about the 'observations' made by the Government against the bill sanctioned by this Parliament dividing the Paisandu Department in two. The thing will have to be reconsidered by Legislature, and this has been the means of checkmating, for the time, the pretentions of Maldonado, San Jose, and others (Pando and the Union included) who sigh for the 'autonomia' of certain districts to be converted into departments. With regard to the encroachment made in our port by the Argentine man-of-war Vigilante taking away the craft Pensiero from the very centre of our inner port, the affair is being discussed diplomatically and is being sifted in the public opinion to the no very charming remarks on the vigilance of our port authorities, and Custom House cutters, as very illustrative of what might be done 'in case of being winked at,' in smuggling a cargo of goods besides cartridges and rifles.

We are kept in considerable anxiety with regard to your political prospects for a protracted state of peace and tranquillity, but I do not believe a word about fighting with rifles for the present; and if I did, I should be induced to alter my opinion about Porteño politics and my old idea about the back-door strings that old covies can pull when required to prevent mischief. Let your bullies not forget that Chile is in the background observing your motions, and keep heroism for a good cause. Such is at least my idea on the subjet of your spunky proclivities, spoiling the good opinion of sensible Europe with balderdash. Oh! if San Martin had been allowed to become a second Washington, these troubles would have been avoided. Where was the patriotism of your great statesmen of the times you so enhance in centenaries? His remains come back to the land of his birth and achievements just in time to perceive a halo in the way of the future. Let them keep it in mind.

CHASCOMUS.

The monotony of our usual camp life was pleasantly broken in upon on Thursday the 4th inst., on the occasion of our Minister, the Rev. M. P. Ferguson, being about to leave us for a few months to re-visit his native land. The members of the working committee of St. Andrew's Scotch Church, Chascomus, waited on him in order to present him with a tangible proof of the affection and esteem in which he is held by his congregation and hearers. The Rev M. P. Ferguson met the committee, when the Chairman stated the object of their visit, and introduced Mr John Dodds, of the Estancia las Mulas, who had been named and kindly consented to make the presentation, and whose remarks on the occasion I send you a copy of, as being more to the purpose than anything I can say. I also enclose Mr Ferguson's reply. Immediately after the presentation to Mr Ferguson, the children of the Sunday School, assisted by a few friends, presented to Mrs. Fullerton (Mr Ferguson's sister, who also leaves for her native land) a purse containing ten sovereigns as an acknowledgement of their love and gratitude for her services amongst them in the Sunday School. This was very gracefully done by Miss Bruce, one of the scholars, after which the meeting dispersed, everyone seemingly well pleased with the result:—

Mr. Chairman and Gentlemen,

Our Minister, the Rev. M. P. Ferguson, is about to leave us for a short time in order to revisit his native land after an absence of over 17 years, spent in uninterrupted labor amongst the Scotch community in this Province of Buenos Ayres. I say uninterrupted because during this period of time he has not been known even once to fail in keeping an appointment in the per-

formance of his clerical duties, and this in spite of bad weather, bad roads, and frequently bad conveyances. He has not confined his labors to this one Partido of Chascomus, but has, in a true missionary spirit, followed up his countrymen in all directions in the discharge of his clerical duties. These facts are sufficient to prove that he has been in earnest about his work. And we are here met this day, in the name and on behalf of the members and adherents to St. Andrew's Church, for the purpose of giving our Minister a tangible proof that his services are appreciated by his congregation, and this purse, said to contain one hundred gold sovereigns, collected on the spur of the moment, speaks in language more eloquent than I can in words.

I now beg that you, Rev. M. P. Ferguson, accept this purse and its contents, presented to you by the members and adherents of St. Andrew's Church, of Chascomus, in token of the high estimation in which you are held by your congregation as a Minister of the Gospel. I have great pleasure in handing to you, along with this purse, a list of subscribers' names, which I hope will be gratifying to you. I now beg that you all join me in wishing a safe and pleasant voyage to our minister and family, and a safe return.

REPLY.

Mr. Chairman, Members of the Working Committee and Ladies—I cannot trust myself to say much on this interesting occasion; I cannot express in adequate terms all my feelings of thankfulness, and. I am sure, you will kindly excuse me on the eve of my bidding you an affectionate good-bye. This handsome Presentation evokes the warmest and deepest emotions of my heart, and the more so as it was altogether unexpected, and, I feel in a great measure, undeserved, seeing that I have often come short of my high ideal of a minister's life and duty, and after all that I have done I have only been striving to be a faithful workman, that needeth not to be ashamed. I am cheered exceedingly by this pleasing proof of your generous affection, kind appreciation and warm interest in my future welfare, and shall regard it as a stimulus to greater earnestness and diligence in this part of the Lord's vineyard. There are times in our lives when our hearts beat with a quicker throb, because our minds are filled with pleasing thoughts, and this is one of these points in our life. It is a great source of satisfaction and encouragement to a minister to find that there exists a true and abiding friendship on the part of the congregation, and now in my case a deeper affection and a more kindly interest than I was aware of. Whilst acknowledging only one Master, who is in Heaven, and always trying myself by the unremitting test of the Word of God, placing myself at the bar of conscience for approval or condemnation, I am not insensible to the good wishes and affectionate regard of my beloved people, I therefore very gratefully accept of this valuable token of your esteem and respect. I prize it highly: the watch which you commission me to procure will be to me very acceptable, and I hope will keep me always up to time, and remind me of the *main-spring* of joy in life. The gold in the purse will gradually disappear, but the affection and friendship of which it is a tangible token will never be effaced from my memory and the names of my friends here will ever be embraized in my heart. I thank you all here and all the congregation for their uniform kindness and Christian forbearance so many years. And I hope, God sparing me, to come back soon, refreshed and invigorated for further work in the Master's service. I take this opportunity to acknowledge the kind and valuable aid which the Committee of Management have always rendered me, and their constant readiness to assist me in my labours in every possible way, each one having done the Church good service; and the mantle of our former Secretary and treasurer, Mr. J. Dodds, has fallen gracefully and fittingly upon our good friend Mr. N. M. Auld.

EDITOR'S TABLE.

The best news yesterday morning was that it had rained pretty heavily in all parts of the camp during the night. The intelligence made all the sheepfarmers in town look 20 years younger than when they went to bed on Tuesday night. The weather looks broken, and it is hoped that more rain is at hand.

There was a halt in politics yesterday, as well their might. The whole community, from top to bottom, seemed thoroughly 'done up' with the intense excitement of the past few days. As for the political leaders, none of them appear to have gone to bed for the last 96 hours, having been engaged in flying about in express trains and carriages in the cause of Peace and Politica. It's the pace that kills, and general exhaustion must soon ensue. At the meeting of notables in the Red House it is said that General Mitre offered to accept General Sarmiento, Dr. Alberdi, Dr Gorostiaga, in fact any Presidential candidate, to secure peace. D. Lucas Gonzales, Minister of Foreign Affairs, proposed that three names, excluding General Roca and Tejedor, should be sent to Congress as candidates, Dr Alberdi said this would be quite unconstitutional, but in the present emergency it might be tried. The impression that, let who will be President, there will be no fighting is as strong as ever in the public mind. General Roca's letter is the latest 'novedad.' We give it in another column. It flatters Governor Tejedor greatly.

The family of Dr D. Salvador del Carril, the venerable and distinguished ex-President of the Supreme Federal Court, have contributed the large sum of $15,000 to the Rivadavia Centenary Fund.

The *Prensa* of yesterday had a splendid leader on the memorable Tigre interview. Our colleague's republican and democratic soul revolts (not unnaturally) at the spectacle of two men, without any authority whatever from the People presuming to dispose of the votes, lives and property of two millions of Argentines. It is certainly a singular and by no means edifying or hopeful spectacle for a nation of free men, but let us hope that eventual good may spring from such an abnormal scene.

Some of the famous 'Island' (Wexford) cattle which are expected here were purchased and selected by Mr. Moffat, an old River Plate man, formerly a partner in the leading firm of Proudfoot Hall and Co: he is also a most successful breeder and runner of horses.

'On dit' that Hermann the great Wizard will not perform here at present, but goes to Rio, whence he will return when the opera company has left.

The last 20,000 pat. prize of the Caridad Lottery fell in Rio. Baron Cunha, the banker, gave 41 contos of reis for it as a bill of exchange.

The Argentines of colour in Montevideo held a meeting last week to join the movement there to do honor to the remains of General San Martin.

We have not had time yet to hear the Colon Opera Company, owing to the shocking political situation. We read yesterday in a colleague's columns that Faust had proved a 'fiasco' to-day we read in another contemporary that it was splendid, and the house crammed to the skylights. Somebody must be telling 'stories.' The high reputation of the artists renders a failure unlikely, to say the least of it, in anything they may undertake. By the way, it is said the company will leave for Rio immediately after the July Fetes, and return here for the Exhibition in September.

A field-officer of the Argentine army walked into the French gunsmith's at the corner of Calles Piedad and Florida on Tuesday evening and bought a revolver; it was scarcely in his hand when he attempted to blow his brains out with it, but some persons in the shop prevented the crime.

Our rural colleague the *Pampero* of Bragado had a narrow escape of being knocked into minced 'pie' a few nights ago. A hazy-looking 'individuo' called and asked to see 'the man that ran the paper,' as he did not like his style of writing. The editor was not at home, so the visitor left, but quickly returned with a band of gauchos, who fired 20 revolver shots through the premises. A plucky young 'devil' in the printing office seized the only revolver in the office and fired the six charges slap into the group of assailants, who ran like hares. Revolvers in a newspaper office are sometimes useful, but we never use them; if a man wont pass the mustard at dinner or pay his newspaper subscription without a bullet in his head, it is easy to wipe him out on a more christian scale. 'Never more be subscriber of ours,' is all we say.

H.M. gun-vessel Elk arrived here from Montevideo on Tuesday evening.

The long pending question of land for the extension of the East-Argentine Railway to Ceibo is at last settled. The National Government agent officially handed over the necessary lands last week.

'Cuidado con John Bull' is the caution which a Montevidean colleague gives those whom it may concern when announcing that the Tycho Brahe has brought out a large quantity of arms, and that H.M.S. Elk had sailed for Buenos Ayres.

Mr. Edward Cooper., Resident Director of the Central Uruguay Railway, sailed from Montevideo in the Elbe for Europe.

The latest news from Rio reports a new steam line between Rio and Canada, to begin to run on August 1st next, with £10,000 a year subsidy from the Brazilian Government. The Duke of Caxias has died of erysipelas.

We received yesterday the programme of our coming Spanish colleague *La España Moderna*, and doff our editorial hat to its distinguished editor Mr Paul Angulo, wishing him every success.

The peak of the mighty Chimborazo has at last been profaned by the foot of man, and that man an Englishman. What the great Humboldt and others failed to achieve an English baronet, travelling for pleasure, has accomplished. Well done.

'On dit' that the Montevidean Rowing Club has challenged that of Buenos Ayres to another trial of strength on the 25th inst.

The arrivals of immigrants direct from Europe last month reached 1,619, and via Montevideo 2,294. They all paid their own passage, and 85 per cent of them are of the farming class.

A porter in the Minister of the Interior's office has disgraced his distinguished name (Garay) by 'mizzling' with 280 patacons of the very best legal tender. Garay, my man, the shade of your distinguished 'tocayo' who discovered this blessed country will haunt you to your 'shuffling off' day.

The news from Peru is shocking—Change on London down to sixpence, and the proveeduria bills given to the army contractors have been protested in London. Terrible anxiety in Lima as to the result of the battle at Tacna; the people fear the worst, as in the whole allied army there are only 'twelve' light field guns to oppose the splendid batteries of the Chilians, One thing we foresee clearly, viz., that when Argentine politicians recover their sober senses after the present electioneering fit is over, they will have to contemplate 'accomplished facts' on the other side of the Andes which they never even dreamt of when the Ten Cents War broke out.

The famous flag of San Martin's Army of the Andes is now on the way down from Mendoza, where the hero deposited it: it will be the most remarkable object at the ceremony of receiving his honoured remains, which are now more than half way across the Atlantic in the new Argentine troop-ship:

A sign of the times. A great exodus of robbers, pickpockets and bad characters generally, from this city to Montevideo, is reported. We wonder at this, as, judging from the newspapers, these people appear to be doing a flourishing business on this side of the water. Should Col. Latorre ever resume the governing business in Banda Oriental, we shall have all these unholy customers back here in the twinkling of an eye.

INTER-OCEANIC MAILS.

B. Ayres, May 12th, 1880.

To the Editor of the *Standard*.

Dear Sir,

How is it that with steam vessels constantly running, our news agents require forty days to place us in possession of home news? For some time past they seem to receive all their exchanges at the end of the month, the first half being a level blank.

Yours truly,

Reader.

THE SITUATION

VERY LATEST

The Provincial Deputies issued yesterday a patriotic manifesto to the people, to the effect that they will do everything possible to maintain peace, but will back Governor Tejedor's policy to the last.

Congress has named a Peace Committee—General Mitre, Dr. Plaza, Dr. Alberdi, Dr. Quintana, and Felix Frias, to see if they can do anything to induce the Comisiones de Poderes to agree before the House meets again to-morrow. The Roquistas agree.

Another Commisson to Roca goes up to Rosario to-day in a special steamer—the Interior.

The gold market ruled evener to-day, and the business done was much smaller than yesterday. Gold for cash ruled much firmer than on time, which shows that confidence rules in the market. Another Cabinet Meeting with the representative men was held to-day at 3 o'clock in the Nat. Government House, and at half past 2 o'clock Mr Emilio Fernandez, the President of the Bolsa, left for the National Government House; we saw Dr Gorostiaga, Sr Frias, Gen. Mitre, and others also going on the same errand. Congress met to-day to be adjourned for two days, much to the surprise of the theusands assembled in the Plaza 25 de Mayo. The appearance of that Plaza at 2 o'clock indeed reflected the times we live in, and between policemen and lookers on, the old Plaza was so thronged that it looked like the May feasts.

Gen. Roca's letter, which we publish in another column, was much discussed; it reads very temperate, and although he does not say much, still his disavowal of civil war and his obedience to the decision of Congress show that the arrangement of the question rests more with Congress than with the Candidates.

The general impression in the market is that President Avellaneda, Dr Plaza and many others who have high influence with Congressales are resolutely determined for peace, and that it is probable if the Roquista party does not come to some terms, there will be a majority in the house in favor of the Conciliation party, which will save the situation, and it is in consequence of this conviction that the market rules as steady as it does.

The death of Dn Juan Robbio threw a gloom over one portion of the Bolsa; he died in Italy having left here about a year ago; deceased was a prominent Plaza broker and much esteemed by all, he had been a resident of the Plate for 30 years, and leaves a large family in this city to mourn his loss. Some of the best families in town are thrown into mourning by this news; he was 65 years of age and died wealthy.

Gold opened and shut at 30.85, cash sales 104,434. For the end of the month only 322,000, opening at 30.80, dropping to 30.70, and closing at 75. For November and Dec. some sales at 30.50.

In Cedulas prices firm, and a stronger feeling in Nat. Stocks; a few Bushentals offering at 90 and 88, buyers offer 87; Treasury Bills firm at 78.

The rain last night was the grand news of the day, and the telegraph announces that it fell at all points, which is an immense relief, as the state of affairs outside was most alarming, the weather continues so soft and cloudy that there seems every probability of more rain. What fell last night is worth all the paper money in the Provincial Bank.

The s.s. Dom Pedro has arrived at Montevideo with 89 passengers and 1,250 tons of cargo; she will come up on Friday.

Montevidean exchange is offered and has been done to-day at 1½ o/o prem. There are still takers in the market, but they are reluctant to pay this price, in view of the comparative weakness of special gold.

Commercial exchange on London is quoted from 49½ to 49¾d. Nothing doing, and the only exchange business we could hear of today was done at 40d by the Provincial Bank.

The conference at the Government House broke up at 4 o'clock and like wildfire the news spread that everything progresses well and favorably. Dr Quintana is now spoken of as the "man for Galway".

The Provincial Bank discounted five millions currency to-day and has called up from the country branches nearly all their paper reserve. The large amount of paper money taken up off the market by the Bank as appears by the balance-sheet attracts notice.

The new Provincial Treasury Notes will be issued at once, and there are buyers on 'Change already offering 95 for them; the Bank will have the sale of them.

The Poitou brought 34 passengers for Montevideo and 600 for this port.

The British gunboat Elk, that entered yesterday, it seems, was at first mistaken by the Argentine war vessel for another of Lamport & Holt's steamers, but the attempt to stop her amounted to nil, and Captain Clanchy pursued the even tenour of his way without even the discharge of a minute gun or the firing of a blank cartridge. They say on 'Change that the question of the Plate and Bessel is settled, the Government paying as a matter of course the damages. The law on the point is pretty clearly laid down; the ship is but a common carrier, and the Captain signs his bills of lading with contents unknown thus it is only where war is really declared and actually exists that contraband can be claimed. In the present instance the position taken by the Argentine Minister is utterly untenable, and even if Remingtons were manifested as pigs' cheeks from Drogheda, no claim could be made against the vessel or Captain.

We welcome with pleasure Mr. Rose, the well-known Montevidean exchange broker, who comes to establish himself here. Affairs in Montevideo are so monstrously dull that an English exchange broker down there is like the last rose of summer, and the sooner the Montevideans do all their exchange business in this market the better for them and for this market.

Holders of National Securities were in better spirits to-day, and good bills that were offering yesterday at 24 per cent were done to-day at 15. The credit of the National Government is strong and deservedly so. We saw a party on 'Change whose two bills matured yesterday and to-day, one for 120,000 m/c and the other for 140,000 m/c, and both were paid without a request to call again; of course the holder of these bills as soon as he got his money came on the Bolsa and ordered his broker to buy more, as, spite of all the intense political excitement going on, the strict punctuality of the National Treasury in its payments maintans the Government credit intact in even a politically bewildered market.

Respecting the 50,000,000 m/c voted by the Chambers for the so called 'Resistance policy,' the Government has issued the following decree modifying it; hereby the vaults of the Provincial Bank will remain infact.

B. Aires, May 11th 1880

Whereas a credit of 50,000,000 m/c has been voted for the executive, and it is convenient not to touch the Provincial Bank's funds, the executive resolves—

"To emit Treasury Bonds at 8 o/o and with an amortization of 10 o/o per annum, the obligations to be met quarterly.

"The amortization of these bonds shall be effected by 'licitacion,' and on the sums in circulation, the Government remaining with the faculty of paying amortization over 10 per cent.

"The Provincial Bank shall take over the service of these bonds, with the guarantee of the funds deposited under heading 'Rediios Judiciales,' from 1st June prox.

"Let it be published, etc.

Dr. J. COLLIS BROWNE'S
(Ex Army Medical Staff)

CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 13th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

En el registro grafico se conoce por Francisco Times.

A continuacion publicamos un informe que sobre este campo tenemos de uno de los vecinos ante nombrados y que esta a la disposicion del que lo quiera ver y dice asi: 'Muchos piensan que estos campos no son apropiados para ovejas puedo decir que una con otra las majadas dan un aumento de 30 a 40 o/o y que mas segun el cuidado, y de la lana segun la calidad de la majada, el estado que se encuentre etc, las de aca este año pasado han dado como sigue: esquilabamos 3,233 ovejas vendiendo 650 arr. de lana a 17 o/o y las borregas faltaban una fraccion pequeña para 12 o/o.

Por consiguiente ya pueden apreciar los interesados que el campo es muy superior; como lo demuestra el solo hecho de estar rodeado de tanto poblador Ingles.
